MSRI/Evans Talk

MONDAY, NOVEMBER 22, 2010

4:10PM; 60 EVANS HALL

UNIVERSITY OF CALIFORNIA, BERKELEY

“WHAT IS RANDOM MATRIX THEORY?”

Percy Deift
(Courant Institute, NYU)

The speaker will give an introductory talk about RMT. The talk will include some history, basic elements of the theory, and some applications.

Refreshments at a nearby establishment immediately following the talk!
Graduate students and Postdoctoral Fellows are particularly welcome.
