

# Topics in the Geometric Langlands Program

Organizer: Edward Frenkel

Tuesday, 2:10–3:30pm, 939 Evans

---

May 8      **Edward Frenkel**, UC Berkeley

*From local to global geometric Langlands correspondence*

I will first summarize the main features of the local Langlands correspondence in the setting of affine Kac–Moody algebras. Then I will talk about the passage to the global geometric Langlands correspondence.
