

Math 1A, Homework 12, due Monday Dec. 2

Lectures before Thanksgiving will cover 5.1–5.5. Please note that this homework is due on *Monday* after Thanksgiving.

This last part of the course is very important, so please don't let your energies flag! The final will be weighted toward the material after the second midterm.

There will be one more homework assignment after this, due during RRR week. I will also lecture at the usual time and place during RRR week. The first of those two lectures will make up the lecture we lost because of the Dwinelle shutdown. The second one will be a course review.

Homework to hand in:

Section 5.3: 43, 45, 57, 67, 70.

Section 5.4: 10, 12, 25, 31, 37, 49, 54, 60, 64.

Section 5.5: 7, 31, 33, 48, 59, 62, 77, 86, 92.
