Math 1A, Homework 2, due Fri. 09/13/2013

In the coming lectures (09/05, 09/10, and 09/12) we shall cover sections 1.6–2.3 of the book. In particular, we shall meet for the first time one of the central notions of Calculus, the notion of *limit*.

I haven't assigned any homework from 2.1, but you should definitely read that section.

Homework to hand in:

Section 1.6: 3, 5, 17, 18, 35, 36, 40, 41, 52, 63, 70.

Section 2.2: 2, 6, 16, 32, 33, 46.

Section 2.3: 2, 9, 18, 29, 32, 37, 40, 60, 61, 64.
