Math 1A, Homework 3, due Fri., 09/20/2013

In the coming 3 lectures (09/10, 09/12, 09/17) we shall cover sections 2.1–2.6 of the book. These sections deal with basic definitions, theorems, and calculation methods having to do with *limits*. (Although I have not assigned exercises from section 2.1, you should read it. It describes some very important applications of limits.)

Homework to hand in:

Section 2.4: 2, 4, 11, 19, 32, 37, 44.

Section 2.5: 3, 6, 10, 11, 20, 28, 38, 54, 60, 69.

Section 2.6: 4, 7, 16, 26, 38, 43.

Section 2.7: 6, 12, 17, 18, 19, 21.
