

Math 1A, Homework 6, due Friday 10/18/2013

We lost one lecture because of the Dwinelle blackout on Oct. 1. That means the second midterm will likely occur either Nov. 15 or Nov. 20. I will announce this in a few weeks. It also means I will need to lecture Tuesday Dec. 10 (in RRR week) on the last bit of new material. Thursday of RRR week I will conduct a review session.

Lecture on 10/08/13 will be on the chain rule and implicit differentiation.

Homework to hand in:

Section 3.7: 4, 8, 17, 26, 31.

Section 3.8: 4, 6(a)(b), 9, 11, 19.

Section 3.9: 5, 13, 15, 27, 40, 45.
