INSTRUCTOR: Ben McMillan  
Office: Evans 850  
Office Hours: Monday 1-2pm; Wednesday 4-5pm; Thursday 4-5pm  
Email: mcmillanb@berkeley.edu  
Web Page: http://math.berkeley.edu/~bmcmilla/

PREREQUISITES: Single variable calculus (Eg math 1a & 1b or Calculus I-II)  
TEXTBOOK: Multivariable Calculus: Early Transcendentals for UC Berkeley (ISBN-13: 978-1-4240-5499-2 or ISBN-10: 1-4240-5499-0). This is a special version of the book made specifically for UCB. It is important that you get the correct edition so that you will find the correct homework assignments and material. If you are uncertain if you have the correct edition check the ISBN.  
HOMEWORK: There will be a homework assignment due every Monday and Thursday. They will consist of several short problems graded for completion and a few more involved ones graded for accuracy. Collaboration on homework is encouraged, but blind copying is strictly prohibited. The lowest homework score will be dropped. Late homework will not be accepted. HW is worth 10% of the final grade.  
QUIZZES: There will be a quiz each Friday on the material covered that week. The lowest quiz score will be dropped, but there will be no make up quizzes. Quizzes are worth 15% of the final grade.  
EXAMS: There will be two in class midterms, the first one on Friday July 1st and the second on Wednesday July 27. The final will be on the last day of classes, Friday August 12. These are immutable and there will be no make up exams. If you will have a conflict with any of these dates you should reconsider taking the course. If you do not take the final you will automatically receive an F.  
Exams are not cumulative, but the material very much is.  
GRADING: The final grade for the course will consist of 10% HW, 15% quizzes, 20% each midterm and 35% final.  
If you miss the first midterm then your final score will be 30% midterm II and 45% final. If you miss the second midterm your grade will be 20% midterm I and 55% final.  
If you miss both midterms or the final you will fail the course.  
DSP: If you are a registered DSP student and require special arrangements you must provide me with your DSP document and request arrangements via e-mail or in office hours at least one week in advance of the necessary arrangements.
