
MATH 1B: CALCULUS DISCUSSION SECTION 2

4-5 PM MWF EVANS 45

GSI: ANNA LIEB

Contact: lieb@math.berkeley.edu

Office: Evans 826

Webpage: <http://math.berkeley.edu/~lieb/>

Course Webpage: <http://persson.berkeley.edu/1B/>

ABOUT THE DISCUSSION SECTION

- Math is not a spectator sport! This discussion section is a chance to do math, rather than just watch it being done.
- On Mondays and Wednesdays you will be mostly be working on example problems in groups.
- On Fridays you will turn in your homework and take a short quiz over the material covered in homework and lectures.
- Participation is essential and questions are encouraged, *however* homework questions should be reserved for office hours.

HOMEWORK will be graded pass/fail. Problems increase in difficulty as you work through a section of the book, so start early and make sure you have time to get help if you need it.

QUIZZES will be closed book. There will be three problems which you will have 20 minutes to complete.

SECTION GRADES are worth 20% of your total course grade. Section grades will be computed roughly as follows: 40% homework, 50% quizzes, 10% participation. There will be NO LATE HOMEWORK and AND NO MAKE UP QUIZZES but the lowest two grades of each will be dropped.

ACADEMIC HONESTY is expected. Collaboration is encouraged, however, you are responsible for writing your own solutions and adhering to the university academic honesty policy.

ABOUT YOU

Name:

Major:

Where are you from?

Please circle your top TWO choices for office hour times and cross out one you absolutely do not want:

M 11-12 M 12-1 T 4-5 W 11-12 W 12-1 W 1-2 Th 4-5

Write down a function that describes you, and explain why:
