

Numbers and Names

Office: 852 Evans

Office Hours: we will choose these now, and by appointment
morgan.w@berkeley.edu (or @math.berkeley.edu); subject "16A"

website: math.berkeley.edu/~morganw/, for quiz solutions

Adjunct: http://slc.berkeley.edu/math_stat/math16a.htm

Enrollment: Thomas Brown, 965 Evans

Section is on Berkeley time, i.e. starts 10 minutes past the hour.

Grading and Tests

Course grade = 20% each midterm, 40% final, 20% section

Section grade = 13% quizzes, 5% homework, 2% participation

Midterms: Thurs Oct 3 and Thurs Nov 7

Final: Wed Dec 18, 3-6PM

Quizzes

There will be quizzes every other week, starting next week. One problem will be from homework.

Your lowest quiz score will be dropped.

There are no make-up quizzes, unless you have arranged with me in advance with a legitimate reason for missing section.

Homework

At the top of each homework, please put your name, section number, and SID.

It is due every section, at the beginning of section. If you can't or do not want to be in section, please turn in homework at the beginning of class or get a friend to hand it in.

Homework is graded on completion, so if you make a solid effort on each problem you will get the full homework score, in addition to learning the material well.

You cannot turn in homework late, unless you have made arrangements with me in advance.

Homework was not due at the first section, and I will drop one incomplete homework. So if you turn in all but one of the homeworks from week two onward (9/10) you will get full homework credit.

Participation

You are all guaranteed your participation grade unless you act in a rude or disruptive manner.

"Disruptive" includes coming in to section at any time other than the very beginning to drop off your homework and leave without participating in section.

Email Policy

Please use "16A" in the subject of all of your emails to me, so I can find them.

I will try to get back to you quickly, but I make no promises, especially for Monday night homework emails.

DSP

If you require DSP accommodations and are already registered with DSP, Professor Slaman should have your letter informing him of your requirements. If you become registered during the semester, the DSP office will send a letter then. However, he does ask you to check in with him before the midterms and final to talk about your accommodations, and to make sure we can get a room and proctor. I suggest two weeks in advance.

If you require DSP accommodations for quizzes, let¹ me know (privately, via email or office hours, if that is what you are comfortable with).
