Email: m_shermanbennett@berkeley.edu
Section Website: math.berkeley.edu/~msb/s1855
Office: 824 Evans
Office Hours: Tuesday 3-5

COURSE INFORMATION:

Homework: Due Wednesday at the beginning of class. Problems are assigned via the course website (https://math.berkeley.edu/~williams/55.html). No late homework will be accepted except in exceptional circumstances.

Class time: Will be devoted largely to problem-solving and answering questions arising from the lectures. Be prepared to think about practice problems in small groups, and talk about your solutions with other students. Solutions to the day’s problems will be posted on the section webpage; I’ll also go over some solutions in class. The classes immediately before exams will include some exam review.

MISCELLANY:

• Students on the wait list should look for an open section. If you have any issues with enrollment, please talk to Thomas Brown in Evans 965. Students with questions about Concurrent Enrollment should also speak to Thomas Brown.
• You must attend the section for which you are registered. Section enrollment/changes are performed through CalCentral.
• If you need disability-related accommodations in this class, if you have emergency medical information you wish to share with me, or if you need special arrangements in case the building must be evacuated, please inform me immediately. Send me an email, or we can meet privately after class or in my office.
• Normal standards of academic and common courtesy apply here: raise your hand, let others finish speaking before you begin, put unnecessary electronic devices away during class, etc.
• Academic honesty is expected on homework and exams. It’s fine if you work with others on homework, as long as you write up your solutions on your own and in your own words. List the names of any people you worked with on the top of the front page. If you use a source besides the textbook, list that as well.
• If something I say or write on the board doesn’t make sense, speak up!
