## Additional homework problems

1. Let $\left(w_{1}, \ldots, w_{m}\right)$ be a list in a vector space $V$ and let $W$ be the span of $\left(w_{1}, \ldots, w_{m}\right)$. For each $i$, let $W_{i}$ be the span of $\left(w_{i}\right)$. Prove that the list $\left(w_{1}, \ldots, w_{m}\right)$ is linearly independent if and only if each $w_{i} \neq 0$ and $W=W_{1} \oplus W_{2} \cdots \oplus W_{m}$.
