

Mathematics 54, Spring 2012

Fraydoun Rezakhanlou

Lectures: MWF 11–12 2050 VALLEY LSB

Office Hours: MWF 12-1 803 Evans

Text : *Linear Algebra & Differential Equations (custom edition)*, Pearson (Custom)

Homework: due **every Monday** in your GSI section. This semester we do not have readers, so your homework should be self-corrected, based on the solutions provided weekly by your GSI. Nevertheless, homework must be handed in every Monday in your GSI section for recording. You must give a detailed solution for each problem – the correct answer is not sufficient. **late homework is not accepted** by the GSI's under any circumstances. There will be *three quizzes* (given in section) that count, for a total of 24 points. Quizzes will vary with the GSI section. The first assignment is due in your GSI section on Monday, January 23.

Grading:

homework and quizzes,	50 points
3 midterms, the best two counting, worth 75 points each, totaling	150 points
Final Exam	200 points
Total:	400 points possible.

The *first midterm* will be in class on Wednesday, February 22.

The *second midterm* will be on Wednesday, March 21.

The *third midterm* will be on Monday, April 23.

The *Final Exam* will be on TUESDAY, MAY 8, 7-10 P. *Make sure you can make the final exam — check the schedule now to see that it is acceptable to you. It is not possible to have make-up exams.*

Incompletes. Official University policy states that an Incomplete can be given only for valid medical excuses with a doctor's certificate, and only if at the point the grade is given the student has a passing grade (C or better). If you are behind in the course, Incomplete is not an option!
