

Math 136, Homework 10, due Fri. April 17

We are going through Chapter 8 of Cutland now, as expanded by the notes I am handing out. I highly recommend that you read both. Where there is some difference in emphasis or terminology, the notes are more important for this course.

The second midterm will occur Thursday April 16, 12:30 pm. It will be posted on Bcourses then. It will focus on the material we have covered since the first midterm, especially the notes I have handed out (up to and including those dated 4/2/2009), and Chapters 7, 11, and 8 of Cutland. I have posted a study guide.

Exercises due Fri. April 17 at 11pm:

From the handouts dated 3/30/2009 and 4/2/2009: all exercises. (I.e. numbers 1–9.)
