# MATH 104, HOMEWORK #1
## Due Thursday, January 21

**Special note: no cover sheet needed for Homework #1.**

First Name: _____

Last Name: _____
*(On this and all future assignments, please use the first name you would like me to call you.)*

Major: _____

Minor: _____
*(Intended or declared, whichever.)*

Previous/concurrent math courses (list grade plus instructor (or school if not UCB)). Leave blank if you have not taken an equivalent course.

other upper div math:

53 : _____     __ : _____

54 : _____     __ : _____

55 : _____     __ : _____

In a short paragraph, describe your previous experience with proofs.

List three interesting/sort of unique[1] facts about yourself, at most one of which is related to math. Try to choose things that nobody else in the class will choose. If you dare to put things like "I really love math!!", I will investigate having you dropped from this class.

1.

2.

3.

**Initial to indicate your agreement with the following statements:**

_____I solemnly swear that I carefully read and will follow the Homework Guidelines posted on the course website.

_____I understand that exam dates are not negotiable.

_____I understand the policy on acknowledging any assistance given or received on graded homework.

_____I will regularly complete reading assignments before class so Kelli is not inspired to give pop quizzes.

_____I found the daily update thread on Piazza.

_____I have exchanged contact information with at least one other student in this class, namely _____.

 **Last task of HW 1: find the check-in poll on Piazza and cast your vote.**

---

[1] "Sort of unique" is not a technical term; never use it again in this class!
